## *Apex Plaza*

*Prudential Portfolio Management and EPR Architects, 1985-88*

Known locally as 'the pink lego building', this large complex was built on the site of the former South Eastern Railway Station. The pink cladding is the dominant feature, and its Postmodern details include several little toy-fort turrets. There is an attractive large atrium inside, but unfortunately there is no public access.

*Amanda Martin Reading Civic Society December 2011*
